

It's our people that
make the difference.

HUTCHINSONS
FOUNDATION

www.hlhlttd.co.uk

Hutchinsons are one of the UK's leading providers of agronomic advice and services, covering more than one million hectares of the UK's farmed area.

A forward thinking, can-do attitude is at the forefront of our philosophy, and it is the dedication and enthusiasm of all our colleagues working closely together that contributes to our continued success.

We have over 440 colleagues nationwide with more than half in customer-facing agronomic advisory roles.

Our long-standing commitment to customers and colleagues, technological advances and continuity of management are our key strengths, and we want you to be a part of that.

About the Hutchinsons Foundation

The Hutchinsons Foundation training programme equips you with the technical knowledge, expertise and customer focus essential to establish yourself as a successful agricultural or horticultural advisor.

The programme is delivered over 30-months and combines all the elements you need to deliver profitable and sustainable crop production advice.

Join more than 90 agronomists who have successfully completed the Foundation and support us in our aim to be recognised as the most trusted, innovative and sustainably aware partner in agriculture.

We are proud of our reputation as one of the foremost agronomic adviser employers in the UK.

Why join Hutchinsons?

We are dedicated to an enriched team culture celebrating our people.

Foundation members bring an integral and valued contribution to the business that is central to our continued success.

We support your professional and personal development with regular training throughout your career, allowing you to develop and provide comprehensive services and advice.

More than just industry standard qualifications

The programme exceeds the industry recognised qualifications of BASIS and FACTS, with additional specialist qualifications including Sustainable Land Management, BASIS Soil and Water Management, Personal Development and Commercial/Business Development.

Innovation & technology

Innovation drives much of what we do, keeping us at the forefront of agriculture.

We have developed unrivalled precision and digital farming software, including Omnia. On the programme you will have the chance to be involved in using these platforms to increase farm productivity, efficiency, profitability and environmental sustainability.

Specialist knowledge

Our people's individual passions and areas of expertise are celebrated within the business. We have a number of experts covering areas such as soils, agroecology, environmental stewardship and seeds, who continue to learn and share their knowledge.

We pride ourselves in, where possible, enabling individuals to follow their interests and strengths.

Commercial success

It is our people that make us successful and our Foundation programme is committed to providing you with competitive advantage through our market leading training.

Making a difference

We feel an enormous sense of pride in the work we deliver and the contribution that we all make to supporting our customers be as successful as they can, through our people, advice, supply and technology.

The Hutchinsons Foundation Programme is designed to provide the best possible training for our future agronomists, to ensure Hutchinsons has sufficient skilled, professional and dedicated agronomists to meet the future needs of the company and our clients.

Hutchinsons commits substantial people and financial resources to the Foundation Programme. In an ever-evolving sector it is important that additional training requirements are recognised and can be incorporated.

The fulfilment and long-term career opportunity that a successful agronomist can enjoy are very attractive, but this will only be achieved through dedication, determination and a flair for the subject.

David Hutchinson – *Chairman*

It's our people that make the difference.
